Teradata Product Support Policies
Revision History

Revision	Date	Section	Synopsis
30	4/12/24	Premier Cloud Support	Eliminated the mention of local language support to avoid confusion, as this feature is exclusively offered in Essential.
		Extended Application Maintenance (EAM)	Offer discontinued in 2020.
		Teradata Essential	Excluded the mention of "mentoring" from the Teradata Viewpoint Setup and Review section. Instead, customers can now access self-service documentation containing this information.
29	11/17/23	Support for Solid State Drives (SSD)	Updated section to align with the company's direction of support for 5 years, no longer dependent on endurance threshold limits.
		Batter Replacement	Removed section as this is no longer applicable to Teradata systems and solutions.
		Overview	Add verbiage to make it clear that the Product Support Policies are not applicable to VantageCloud solutions.
28	6/1/23	Essential	Updated reporting sections to align with the new capability that is now being made available via Support Portal dashboards; Added sections to describe the Service Advisory and Support Management activities
		BAR Software Implementation (SWI)	Removed reference to Tier Archived Restore Architecture (TARA) – which went EOL Feb 2021
		Coverage Hours and Response Times	Removed reference to coverage not being available on Data Domain BAR products
		Overview, Coverage Hours and Response Times, Premier Cloud Support, Hardware Support Lifecycle, Remote Connectivity	Added verbiage to include third-party equipment as part of the list of hardware covered by the Teradata Product Support Policies terms and conditions
27	2/13/23	Premier Software Only Support	Updated the Response Time for Severity 3 cases under the 24x7 Priority plan to Next Business Day
		Teradata Essential	Added Teradata Education Checkbook entitlement details to this specific section – previously it was under the Teradata Success Services category
		Teradata Success Services / Performance & Optimize	Offers discontinued in 2022

26	11/15/22	Critical Patch Review	Added sentence to clarify that Critical Patch Review is not applicable to Public Cloud DIY. Patches for Public Cloud DIY are made available in the quarterly maintenance release
		Vantage Limited Upgrade Service / Essential	Updated section to remove the previous limitation of maintenance/patch only availability for Public Cloud DIY. Major/minor upgrades are now included.
		Update specific to Chinese translated version	Removed a China-specific SLA limitation that was noted regarding onsite response time. No longer a limitation.
25	3/31/22	Remote Connectivity	Removed the US pricing details related to the no-remote connectivity uplift fee – as it varies by region
		Teradata Success Services	Slightly modified Teradata Checkbook wording to be more succinct and easier to understand
		Teradata Success Services: Performance Data Collection Reporting (PDCR) Configuration	Added verbiage to clarify that PDCR upgrades will be provided when a major PDCR update occurs
24	1/1/22	Cover Page	Updated Revision History & Policy PDF URL links
		Remote Connectivity	Updated section to align with Teradata's Remote Connectivity policy – which requires Remote Connectivity to deliver services capable of remote delivery. There is no longer an option to pay an additional uplift for remote services locally.
		Product Moves, Adds, or Reinstatements	Removed reference to the Teradata Operations Management (TOM) agent as it is no longer relevant
23	10/15/21	Extended Teradata Database Maintenance (EDM) Period	Added the "EDM is subject to additional fees" verbiage to this specific section of the document
		Teradata Success Services: Software Implementation	Added the "Do It yourself (DIY)" descriptor to the Public Cloud reference
22	3/8/21	Premier Support	Added a paragraph to clarify that refusing the use of automation tools becomes the customer's responsibility
		Hardware Support Lifecycle	Removed the (7) years of support verbiage for government contracts – no longer a requirement
		Extended Teradata Database Maintenance (EDM) Period	Added DIY Public Cloud deployments to the list of not eligible for EDM services
		Support for Third-Party Software	Clarified responsibility with third-party vendor arrangements (i.e. Backup and Restore (BAR) third-party software and firmware)
		Teradata Success Services	Removed typo related to the Checkbook credit amounts
		Teradata Success Services: State of Health Reporting	Updated verbiage to let users know that reporting is accessible via support.teradata.com

teradata.

21	11/1/20	Terminology Updates throughout entire policy	To support the introduction of the new portal, changed all "Teradata Access" references to "Teradata Support" portal and changed "Incidents" to "Cases"
		Operating System	Added verbiage to clarify policy on third-party security scans
		Customer Installable & Upgradeable Software	Provided additional details on where users can find support - via Community Support user forum
		Teradata Aster and Hadoop Software Support Lifecycle	Extended Hadoop Support-Only service for expired Hadoop versions to December 2021
		Teradata Success Services	Added new entitlement verbiage for Teradata Education Checkbook
20	7/1/20	Overview	Introduced Teradata Vantage
		Parts Usage	Added verbiage to clarify that failed parts become property of Teradata upon removal
		Teradata Applications	Added clarifying verbiage regarding Support Only Period
		Incident Severities / Escalation Guidelines	Added the new "Severity 5" case assignment and definition
		Teradata Essential: PDCR Configuration	Added verbiage to clarify that PDCR entitlement includes installation and migration of Customer's PDCR data into the latest PDCR version
19	4/1/20	Teradata Applications	Updated list of categories for Current Managed Application and UDA Products
		Remote Connectivity	Policy updated to reflect fees associated with no remote connectivity support for Teradata SW Only
		Vantage Limited Upgrade	Added verbiage to clarify that offering is also available to customers with exclusively Do-It-Yourself Cloud platforms
18	1/10/20	Table of Contents	Structure updated to align with new webpage format
		Installation of Hardware Engineering Changes or Field Retrofit Orders (FROs)	Clarified that 24x7 installation service is available for Customers with 24x7 Priority or Business Critical entitlement

teradata.

17	11/1/19	Premier Kylo Support	Offer discontinued as of September 30, 2019
